(6) *Residual Retribution in Heaven
and Human Realms*

*The burning Five Desires are difficult to satisfy
We often see those we hate, miss those we love
We eat tons of meat and drink alcohol all night
When we overindulge in desires we begin to rot
Guard against residual Karma coming to fruition
When body and mind get sick we become gravely ill
Becoming human is rare, we must eliminate evil
so we do not fall and suffer tragedy again*
